

IT'S TIME FOR...

THE BIG

BATTERY RESCUE

THE
ENERGIZED
GUY!

POWERED
UP

SCHOOL HOLIDAY CHALLENGE!

Now you have seen the livestream performance of **The Energized Guyz: Powered Up**, it's time for you to start collecting batteries.

I have a challenge for you to do over the next few weeks at home. Read below and you can also watch me as I explain all about it in this cool video:

CLICK HERE - <https://vimeo.com/ntcaus/bbrholidaychallenge>

YOUR CHALLENGE

Make a Home Battery Recycling Station

Find an empty plastic container or even a cardboard box. Then decorate your home battery recycling container and make it look AMAZING! Each day, have a search through every room, drawer and cupboard around your house to find all the used batteries you can, and drop them into your home battery recycling container.

Check out the map on page 3 so you don't miss any! When you return to school, take all your batteries to your classroom to be recycled. and that will follow with: I can't wait to see those classroom buckets at school filling up, Dr NeverReady is going to be SOOOO mad - I love it!

See ya later guys, I love your **MAGNETIC** work!

Nikki Nickel

And don't forget to... **DO YOUR BIT! RECYCLE IT!**

PG 1

SCHOOL HOLIDAY HOME BATTERY COLLECTION ACTIVITY

Time to make your very own used battery recycling container!

LET'S GET CREATIVE!

1. Find a clean, empty plastic container at home like an ice cream or yoghurt tub where you can store used batteries.
2. Decorate and label the outside of the container (Don't forget to let your family know that this is the used battery collection station and that you'll be taking them into school after the break to be recycled.)
3. While you're at home, collect your family's used batteries and don't forget to ask your grandparents, cousins, and even your neighbours for theirs!!
4. Tape up the terminals and store them in the container in a cool, dry place.
5. When you go back to school, take the container with you and tip it into your classroom battery recycling bucket.

How many batteries can your class collect?

Don't forget to show off how amazing your home-made battery recycling container looks, ask a parent to take a photo and share it Nikki Nickel on social media! You can find her by using @TheBigBatteryRescue handle when searching on Facebook, Instagram and Tik Tok!

BATTERY SAFETY!

It's important to store batteries safely! Why? They can heat up and cause skin burns or, if terminals connect – with each other or with other metal objects such as keys – it can cause a spark.

What to do? Ensure used batteries have both terminals covered with electrical or sticky tape before storing them together in a plastic container.

THE ENERGIZED GUY! POWERED UP

HOME BATTERY COLLECTION HUNT!

START

COUNT how many batteries you use in your home!

LIVING ROOM

Smoke alarm, remotes, heating/cooling control panel, iPad, portable speakers

KITCHEN

Mobile phone, home phone handset, portable appliances

BATHROOM

Electric toothbrush, Electric razor

BEDROOMS

Alarm clock, ear pods, nightlight, electric toys

SHED

Power tools, torches, portable vacuum

STUDY AREA

Computer, bluetooth keyboard, mouse

OUTSIDE

Doorbell, security lights, cars

BATTERY SAFETY TIP

When collecting old batteries, remember to always tape both terminals to make sure they don't connect with other batteries

COLLECT

Collect up your taped used batteries in your battery recycling container and store in a cool dry place. Then take them to school to recycle.

Work together with your classmates to
SAVE THE ENVIRONMENT. SAVE THE PLANET. MAKE A DIFFERENCE WITH...

THE BIG BATTERY RESCUE

NATIONAL SCHOOL CHALLENGE

Did you miss the livestream
performance?

Head to our website below!
